FINOA - DIGITAL ASSET BANKING AND BLACK MANTA CAPITAL PARTNERS COOPERATE ON CRYPTO CUSTODY FOR INSTITUTIONAL AND PROFESSIONAL INVESTORS

Berlin - Finoa and Black Manta Capital Partners (BMCP) are pleased to announce that they entered into a cooperation to develop the space of tokenized securities for institutional and professional investors and HNWI.

Finoa is a leading institutional-grade custody and asset-servicing solution for Digital Assets, customized to Institutional Investors, HNWI and corporations. Reference customers include Bankhaus Scheich, INVAO Group, Inflection VC and Crane VC. Finoa is delighted to further collaborate with Black Manta Capital Partners providing a secure and compliant custody solution for issuances on the Black Manta Capital Partners' platform, starting with the Real Estate STO [Tigris S17A](#) in Berlin.

Christian Platzer, Co-Founder and Managing Partner at BMCP: *"Germany's crypto custody legislation triggered a wide range of service providers in the digital assets space to apply for a BaFin licence. The German legislation was a crucial step to bring the confidence and liquidity of professional players to the space. In Finoa we see a team that is not only well positioned to cater to the high end investor class, but who bring also a mindset to the table that will be needed to develop this rapidly emerging market."*

Christopher May, Co-Founder and Managing Director at Finoa: *"We are pleased to support the growth of the token economy by partnering with Black Manta Capital Partners for the Tigris S17A project and are looking forward to many further exciting projects along the line."*
